

## TECHNICAL SPECIFICATIONS OF SERVO STABILIZER SINGLE PHASE

Capacity	:	6 Kva
Input Voltage	:	180V – 270V
Output Voltage	:	230V AC Single Phase
Input frequency	:	47 Hz – 50 Hz
Output Regulation	:	+ / 1%
Efficiency	:	Better Than 90%
Duty cycle	:	Continuous
Indicators	:	Input Volt / Output Volt / Over Volt / Under Volt / Over Volt
Metering	:	Voltmeter with selector switch to read both output and input.
Input Protection	:	Short Circuit through MCB
Output Protection	:	Short Circuit through MCB / Over load Protection
Manual Bypass Switch	:	Rear side
Operating temperature	:	0.55 ° C
Dimensions	:	482 x 355 x 550mm (Floor mounting)
Finish colour	:	Zinc Plating and Siemens Grey with Power coating with test in black.
Weight	:	20 Kgs
Mounting Details	:	To be approved before manufacturing.
